

Facts...

A million plastic bottles are bought around the world every minute and the number will jump another 20% by 2021, creating an environmental crisis some campaigners predict will be as serious as climate change.

Most plastic bottles used for soft drinks and water are made from polyethylene terephthalate (Pet), which is highly recyclable. But as their use soars across the globe, efforts to collect and recycle the bottles to keep them from polluting the oceans, are failing to keep up.

Fewer than half of the bottles bought in were collected for recycling and just 7% of those collected were turned into new bottles. Instead most plastic bottles produced end up in landfill or in the ocean.

Solution...

SARATECH Instant PET Bottle shredder machine is used to destroy bottles on the spot of generation. Which will reduce the volume of the waste and saves transportation cost of waste to recycling agents.

SALIENT FEATURES

COMPACT POWDER COATED BODY

NO AIR POLLUTION HENCE DUST IS NOT GENERATING WHILE SHREDDING

LOW NOISE LEVEL WHILE SHREDDING

WHEELS ARE PROVIDED FOR BETTER MOBILITY

OVERLOAD AND SHORT CIRCUIT PROTECTION

OPERATOR FRIENDLY OPERATION

LESS MAINTENANCE COST

SHREDDED WASTE COLLECTION TRAY IS PROVIDED

Shrine

INSTANT PET BOTTLE SHREDDER

EASY FOR OPERATING,
MAINTENANCE
& CLEANING.

Shrine shredding
machines are
equipped with hardened
steel cutters.

Shrine shredding machine is a robust design with minimum maintenance requirement & minimum manual handling. The machine is properly designed and covered to avoid spillage and dust generation.

Technical Specifications

Sr. No.	Model	Make	Capacity Kg/Hr	Electrical Motor HP VAC	Electrical Supply	Size of Shredder Chamber mm L x W	Feed Opening L x H	Waste bin Capacity Ltr	Overall Dimentions mm L x W x H	Gross Wt Machine kgs
